

Anil Jangid

Aspiring Software Developer with a strong foundation in both front-end and back-end technologies. Proficient in HTML, CSS, JavaScript, Python, Java, and SQL. Eager to contribute to team success through hard work, attention to detail, and a passion for technology. Currently seeking opportunities to apply technical skills and grow as a developer.

Academic Projects

Full-Stack Mine Game (Cloned Betting Game)

Team Project – Jul 2024 – Sep 2024

- Assisted in frontend layout using TailwindCSS and supported integration testing.
- Observed and learned implementation of GraphQL, Razorpay API, and JWT-based authentication.
- Contributed to deployment preparation and basic functionality testing on Vercel.

YOLOv8 ID Card Detection

Academic Project Contributor – Jan 2025 – May 2025

- Collaborated on a real-time ID card detection system using YOLOv8, trained on a custom dataset.
- Assisted in dataset preparation, annotation using Label Studio, and running inference scripts.
- Gained hands-on experience with object detection workflows, Python scripting, and model training using Ultralytics.

SmartDocs – AI-Powered Document Processor

Academic Project – Jun 2025 – Nov 2025

- Developed an AI-driven web app using React, Express.js, and Ollama for document summarization, quiz generation, and local data processing with Firebase authentication and Tailwind UI.

Education

Bachelor of Technology in Computer Science and Engineering
Jawaharlal Nehru Engineering College, Aurangabad
Aug 2022 - June 2026
CGPA-6.65/10
